IIT Kharagpur – POMS India Chapter
Conference 2016

E-Business and Supply Chain Competitiveness (EBSCC - 2016)

12-14 February 2016

Jointly organized by

E-Business Centre of Excellence
Department of Industrial and System Engineering,
Indian Institute of Technology, Kharagpur, India

and

**Production and Operations
Management Society, India Chapter**

Venue

**Indian Institute of Technology Kharagpur
INDIA 721 302**

About IIT, Kharagpur

Established in 1951 Indian Institute of Technology Kharagpur is a synonym for quality education in India. With 32 departments and research centers, it is the oldest, largest and the most diversified institute in the IIT system. The institute has been regularly rated as the best engineering institute in India by many agencies. The institute envisions replicating its successes in engineering education into other related areas of knowledge like, management, law, medical science and technology, entrepreneurship, infrastructure designs and management etc.

Industrial and Systems Engineering@IIT, KGP

The Department of Industrial & Systems Engineering was established in 1973. The department for the last four decades, has been instrumental in imparting training and extending frontiers of knowledge in the field of Industrial Engineering and Management through its well established undergraduate, post graduate and research programmes, sponsored projects and industrial consultancy work, short term courses and other continuing education programmes. Today, the department is well known across the nation for its excellent research and consultancy potential and capability in the field of Industrial Engineering and related areas.

E-Business Centre of Excellence@IIT, KGP

E-business, the use of Information and Communication Technology (ICT) for business operations provides the systems and processes that support the flow of information as it occurs in procurement, manufacturing, research and development, sales and services encompassing the entire value chain and the supply chain of an organization. The vision of *E-Business Centre of Excellence* sponsored by MHRD is to act as the hub for research and applications of E-Business especially in manufacturing and logistics, with mission to realize the vision

About POMS

Production and Operations Management Society (POMS) is an international professional organization representing interests of POM professionals from around the world. The purposes of the Society are:
(i) to extend and integrate knowledge that contributes to the improved understanding and practice of production and operations management;
(ii) to disseminate information on POM to managers, scientists, educators, students, public and private organizations, national and local governments, and the general public; and;
(iii) to promote the improvement of POM and its teaching in public and private manufacturing and service organizations throughout the world.

POMS has outstanding POM practitioners who are committed to share practical knowledge and insights with academia and industry, and explore/discuss emerging POM issues in the context of enhancing manufacturing competitiveness. POMS is in its 26th year, and is keen to extend its knowledge network in the Indian Subcontinent.

Conference Objectives

The objective of the conference is to provide a platform for academicians, researchers, practitioners and entrepreneurs who are interested in cutting edge technology of e-Business and its current applications to exchange knowledge, experiences and share innovative ideas to improve business processes, includes managing internal processes such as human resources, financial and administration systems, as well as external processes such as sales and marketing, supply of goods and services, and customer relationships.

Call for Papers

Research papers, articles and case studies are invited from the authors to present and exchange their insights on the recent developments aligned with conference theme. Concept papers are also invited from thought leaders both practitioners and academicians for sharing newer ideas, concepts, and philosophical thoughts. All the papers must be prepared as per author's guideline given in the conference Website. Area must be aligned with and not limited to the conference track. All the abstracts and full length papers must be submitted to <https://cmt.research.microsoft.com/EBSCC2016/>

Conference Tracks

1. ICT for managing value chain and supply chain operations
2. Supply chain integration, inter-operability and enterprise computing
3. Service computing, mobile computing, cloud and Internet of things in supply chain
4. Supply chain collaboration and coordination
5. Supply chain traceability and visualization
6. Supply chain data analytics
7. Supply chain issues in SMEs and role of ICT
8. ICT for supply chain sustainability
9. Innovative E-Business models, applications, implementations and case studies

Publication

All accepted papers will be published in the conference proceedings to be brought out in the electronic format. In addition to the conference proceedings, few selected articles will also be considered for possible publication in the peer reviewed journals.
