December 14, 2020

The Goizueta Business School of Emory University invites applications for a full-time non-tenure-track faculty position in the Information Systems and Operations Management (ISOM) area beginning Fall 2021. This faculty position focuses on teaching six courses per year in Information Systems and/or Operations Management. Additional job responsibilities include student mentoring as well as participation in college and area committees.

The ideal candidate will have at least three years of experience teaching in a leading business school along with relevant experience in industry, government, or the public sector. A Ph.D. in operations management, information systems, business administration, operations research, statistics, economics, computer science, or a related quantitative or technical field is required. Candidates must provide evidence of outstanding teaching.

Our search targets candidates who have the capacity to effectively teach coursework in Business Statistics and Data Analytics (with opportunities to teach data visualization, data management, forecasting, and machine learning).

The Information Systems & Operations Management (ISOM) area within the Goizueta Business School is composed of operations management, information systems, and decision analysis/statistics faculty. An overview of the ISOM faculty research and teaching interests can be viewed at https://goizueta.emory.edu/faculty/isom

The Goizueta Business School is currently ranked 16th in the nation by Poets and Quants and 15th in the nation by US News & World Report for its undergraduate BBA program and 22nd in the nation by Poets and Quants and 20th by US News & World Report for its full-time MBA program.

Emory University is located in Atlanta, Georgia, which is among the best American cities in which to work and and is a major hub for domestic and international travel. Home to the third-largest concentration of Fortune 500 companies in the nation, Atlanta provides a multitude of opportunities to work closely with industry as well as with leading healthcare institutions such as the Centers for Disease Control and Prevention and the American Cancer Society. Salary is commensurate with experience. Multiple year contracts will be considered for the appropriate candidate.

Application Instructions
