Broad College of Business, Michigan State University

Assistant/Associate Professor Tenure System

Department Of Supply Chain Management

Position Summary

Michigan State University's Eli Broad College of Business, Department of Supply Chain Management, has an opening for a tenure system assistant/associate professor with expertise in AI and sustainability to start in the 2026-2027 academic year. Duties include research, teaching, and service, and the teaching responsibility would involve Supply Chain courses. Salary and terms are negotiable depending on experience. There will be preference for candidates who conduct research on topics related to AI, Data Science, Machine Learning, and empirical analytics, with broad operational interests in one or more of the following domains of research in operations such as Cybersecurity, sustainability, humanitarian operations, Healthcare, Industry 4.0, and technology management.

Equal Employment Opportunity Statement

All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, citizenship, age, disability or protected veteran status.

Required Degree

Doctorate -Supply Chain Management, Operations Management or related field

Minimum Requirements

The position requires a Ph.D. or equivalent degree from an accredited university. Candidates must have a conferred Ph.D. in Supply Chain Management or related field as of the start date of the position, and have a demonstrated record of research excellence, commensurate with their rank.

Desired Qualifications

There will be preference for candidates who conduct research on topics related to AI, Data Science, Machine Learning, and empirical analytics, with broad operational interests in one or more of the following domains of research in operations such as Cybersecurity, sustainability, humanitarian operations, Healthcare, Industry 4.0, and technology management.
