

Experiences on Successful Paper Writing and Reviewing

College of Operations in AI, Platforms, and Exponential Technologies (OAPEX)

Academic success is shaped not only by *what* we study, but by *how* we write our papers and *how* we review the work of others. Yet these skills are rarely discussed explicitly.

In this interactive session at the POMS 2026 conference hosted by the OAPEX College, you will hear first-hand experiences and practical insights from senior scholars and journal editors in the POMS community on:

- Writing papers that clearly communicate contribution and impact
- Navigating the review process effectively
- Reviewing papers in a way that is constructive, fair, and influential

The session is designed to be informal and engaging, with ample opportunity to ask questions, share experiences, and connect with colleagues.

Please search for “OAPEX college” to find the scheduled date and time for the session in the POMS 2026 conference program.

Come, learn, ask questions, and meet friends.
We look forward to seeing you there!
