

Job Description

Grade: 8 Lecturer in Supply Chain Management and Logistics

Department: UCL Global Business School for Health

Location: UCL East

Reports to

Director of GBSH

Context

University College London (UCL) is one of the world's top universities. Based in the heart of London, it is a dynamic, outward-looking institution. At its establishment in 1826, UCL was radical and responsive to society's needs, and this ethos – that excellence should go hand-in-hand with enriching society – continues today.

UCL East

In our single biggest development since we were founded, UCL has expanded to East London. Located on the Queen Elizabeth Olympic Park, UCL East is dedicated to disruptive thinking and discovery across disciplines and beyond academic walls and to finding solutions to the biggest challenges for future living. We are located in Newham, East London – one of the most socially diverse parts of the UK – and we want our staff recruitment to reflect this.

Opened in 2022 and 2023, UCL East unites academic activities across experiments, arts, society and technology, integrating research and education, theory and practice with cross-disciplinarity, innovation and public engagement. More than just a conventional campus, UCL East represents a future focused mindset.

UCL Global Business School for Health

The [UCL Global Business School for Health](#) (GBSH) at UCL East campus is an innovative business school in preparing future healthcare leaders to disrupt and reimagine global health systems. GBSH is dedicated to training and developing the next generation of leaders in the global health economy by building on UCL's proud tradition of cross-disciplinary academic excellence in education and research. GBSH develops talent from all sectors – policy makers, technologists and entrepreneurs – to challenge conventional thinking, to improve health outcomes and address health inequalities world-wide.

With a vision for public good, GBSH is dedicated to health as the most important global issue in the 21st Century which is impacting communities and economies worldwide. Its ambition is aligned to the UN Sustainable Development Goal of 'Universal Health Care for All'. At GBSH, we bring together global perspectives from diverse healthcare systems, industry partners and sector networks.

GBSH is an interdisciplinary academic entity that is located within UCL's [Faculty of Population Health Sciences](#) which is committed to innovating and improving health worldwide.

Main purpose of the job

This post will contribute to GBSH's interdisciplinary teaching and research portfolio in supply chain management and logistics, with relevance to healthcare, life sciences, and other complex service and industrial systems.

The successful candidate will be expected to deliver high-quality teaching at undergraduate and postgraduate levels, develop research in supply chain management and logistics, and engage with external stakeholders across industry, healthcare systems, and the public sector. The role is particularly suited to scholars whose work addresses themes such as logistics strategy, supply chain design, resilience and risk, digitalisation, performance management, and operations in regulated or mission-critical environments.

The post holder will join a growing group of faculty working on operations, systems thinking, sustainability, and organisational performance within the Global Business School for Health.

Education

- Teach on undergraduate and postgraduate programmes in supply chain management, logistics, operations management, and related areas, including applications to healthcare and the wider health economy.
- Contribute to the design and delivery of modules covering topics such as logistics strategy, inventory management, supply chain analytics, distribution systems, and operational resilience.
- Supervise MSc, MBA, and PhD students, including dissertation and thesis supervision.
- Support innovative, applied, and experiential learning approaches, including case-based teaching and engagement with industry and health system partners.

Research

- Develop and sustain a research programme in supply chain management and logistics.
- Produce a sustained publication record demonstrating the potential to make significant contributions to leading journals in operations, supply chain management, logistics, or related fields.
- Contribute to interdisciplinary research initiatives aligned with GBSH's focus on system performance, resilience, and value creation.
- Build and maintain national and international research networks, including collaborations with industry, healthcare organisations, policymakers, and logistics providers.
- Contribute to research funding applications as principal investigator or co-investigator.

Other Professional Duties

- Actively promote UCL East's academic values of interdisciplinarity, collaboration, and public engagement.
- The post holder will carry out any other duties which are within the scope, spirit and purpose of the job as requested by the Line Manager
- The post holder will actively follow UCL policies including Equal Opportunities policies and is expected to give consideration within their role as to how they can actively advance equality of opportunity and good relations between people who share a relevant protected characteristic and people who do not share it.
- The post holder will maintain an awareness and observation of Fire and Health & Safety Regulations.
- The successful candidate will need to meet UCL's expectations of core behaviours

This job description reflects the present requirements of the post, and as duties and responsibilities change/develop, the job description will be reviewed and be subject to amendment in consultation with the post holder.

Benefits

For information on UCL's values, culture, and staff benefits, visit [Work at UCL](#).

As London's Global University, we know diversity fosters creativity and innovation. We want our community to represent the diversity of the world's academic talent, from local to global. We are committed to equality of opportunity, to being fair and inclusive, and to being a place where we all belong.

We, therefore, particularly encourage applications from candidates currently under-represented in UCL's academic, research and teaching workforce.

These include people from Black, Asian and ethnic minority backgrounds; disabled people; LGBTQ+ people; and women.

“UCL has always been a place where great things can happen. We were founded on a commitment to service, to the notion that learning happens in a social context, that even our most theoretical work should be undertaken in a spirit of supporting individuals and communities to flourish. That spirit has been present throughout our history and it remains our driving force today.”

Dr Michael Spence, UCL President & Provost
