

G. BRINT RYAN COLLEGE OF BUSINESS

Department of Supply Chain Management

Assistant Professor in Supply Chain Management

UNT System Overview

Welcome to the University of North Texas System. The UNT System includes the University of North Texas in Denton and Frisco, the University of North Texas at Dallas, the UNT Dallas College of Law, and the University of North Texas Health Science Center at Fort Worth. As the only university system based exclusively in the Dallas–Fort Worth region, the UNT System transforms lives and creates economic opportunity through education, research, innovation, and service.

We are one team committed to excellence, curiosity, and innovation. We champion a people-first, values-based culture in which We Care, recognize that we are Better Together, demonstrate Courageous Integrity, Be Curious, and Show Your Fire through passion and pride in our work.

Department Summary

University of North Texas and the G. Brint Ryan College of Business

The University of North Texas is a Carnegie R1 research university located in Denton, Texas, within the vibrant and rapidly growing Dallas–Fort Worth metropolitan area. The G. Brint Ryan College of Business is accredited by AACSB International and offers undergraduate, master's, doctoral, and professional programs designed to prepare students for leadership in an increasingly complex global economy.

Department of Supply Chain Management

The Department of Supply Chain Management is an academic department within the G. Brint Ryan College of Business at the University of North Texas. The department's mission is to advance supply chain knowledge and practice through impactful research, innovative education, meaningful industry engagement, and the development of students who are prepared to lead in complex and rapidly changing organizations.

The department offers academic programs at the bachelor's, master's, and doctoral levels. Its undergraduate portfolio includes the Bachelor of Science in Supply Chain Management with concentrations in Logistics, Operations Management, Aviation Logistics, Purchasing, and Supply Chain Analytics. The department also supports the Bachelor of Science in Industrial Distribution.

UNT's supply chain programs are distinguished by innovative curricula, experiential learning, strong employer relationships, and extensive engagement with the Dallas–Fort Worth business community. The undergraduate supply chain program was ranked No. 4 in Gartner's 2024 Supply Chain University Top 25, reflecting its academic quality, industry relevance, and commitment to preparing students for successful careers.

Department faculty conduct basic and applied research across a broad range of supply chain topics, including logistics, sourcing and procurement, operations management, transportation, supply chain

analytics, technology, resilience, risk, sustainability, and complex systems. Faculty members publish in leading academic journals, collaborate with industry and government partners, mentor doctoral students, and contribute leadership to major professional and scholarly organizations.

The department benefits from its relationship with the Center for Logistics & Supply Chain Management and the Center for Strategic Sourcing. These partnerships support student development, industry engagement, applied research, executive education, scholarships, internships, and collaboration with organizations throughout the Dallas–Fort Worth region and beyond. UNT's location in one of North America's most important logistics and distribution hubs provides exceptional opportunities for research, teaching, and industry collaboration.

The department is committed to creating an academic environment in which students, faculty, and staff from a wide range of backgrounds can succeed. Candidates who have experience teaching, mentoring, or conducting research within large, diverse, or Hispanic-Serving and Minority-Serving Institutions are encouraged to apply.

Position Summary

The Department of Supply Chain Management in the University of North Texas G. Brint Ryan College of Business invites applications for a full-time, tenure-track position at the rank of Assistant Professor of Supply Chain Management. The anticipated appointment will begin Fall 2027 and will be based primarily on the UNT Denton campus.

The successful candidate will maintain an active program of high-quality research with the potential for publication in leading supply chain management, logistics, operations management, or related business journals. The candidate will teach undergraduate and graduate courses, contribute to the department's academic programs, mentor students, and participate in service activities appropriate to rank.

The department welcomes candidates whose research and teaching interests fall within supply chain management. Areas of particular interest may include:

- Logistics and transportation
- Sourcing, procurement, and supplier management
- Operations and process management
- Supply chain analytics and artificial intelligence
- Supply chain technology and digital transformation
- Sustainability and circular supply chains
- Aviation logistics
- Humanitarian, healthcare, public-sector, or defense supply chains

Candidates with complementary expertise that strengthens or expands the department's existing capabilities are also encouraged to apply.

The successful candidate will be expected to:

- Develop and sustain a productive, high-quality research program with the potential for publication in leading peer-reviewed journals.
- Teach supply chain management and related courses at the undergraduate and graduate levels.
- Deliver courses in face-to-face, online, hybrid, or other formats consistent with departmental needs.
- Contribute to the development and continuous improvement of departmental curricula and academic programs.
- Mentor undergraduate, master's, and doctoral students.
- Collaborate with faculty members on research, teaching, and program initiatives.
- Pursue external research funding or industry-supported research when appropriate.
- Engage constructively with the department's industry partners, centers, alumni, and professional communities.

G. BRINT RYAN COLLEGE OF BUSINESS

Department of Supply Chain Management

- Participate in departmental, college, university, and professional service.
- Support the university's commitment to student success and an inclusive learning and working environment.

Minimum Qualifications

Applicants must have:

- A doctoral degree in supply chain management, logistics, operations management, purchasing, transportation, industrial engineering, or a closely related field from an AACSB-accredited institution by the time of appointment.
- Evidence of the ability or potential to conduct high-quality scholarly research.
- Evidence of the ability or potential to publish in respected peer-reviewed journals.
- Evidence of the ability or potential to provide effective university-level instruction.
- Strong written and oral communication skills.
- Candidates who are ABD will be considered, provided that all doctoral degree requirements are completed before the appointment begins.

Preferred Qualifications

Preference may be given to candidates who demonstrate:

- A clearly defined research agenda with strong potential for publication in leading journals.
- Publications or manuscripts under advanced review in recognized supply chain management, logistics, operations, or related journals.
- Expertise that complements the department's existing research and teaching strengths.
- Experience teaching supply chain management or related courses.
- The ability to teach across multiple levels and instructional formats.
- Experience working with doctoral students or participating in doctoral education.
- Potential to secure external research support.
- Interest in interdisciplinary, industry-engaged, or applied research.
- Experience developing relationships with companies, government agencies, professional associations, or other external organizations.
- Experience supporting the success of students from varied educational, cultural, and socioeconomic backgrounds.
- A record of collegiality and the ability to collaborate effectively with faculty, staff, students, and external partners.

Special Instructions to Applicants

All applications must be submitted electronically, through the UNT online system. Questions may be directed to the Search Committee Chair, Dr. Jeffrey Ogden (Jeffery.Ogden@unt.edu).
